Subitizing Concentration Game

(Version 1)

Material: A game with 24 cards

Players: Two or three

Rules: Shuffle the cards and place them face down on the table. The first player turns over two cards. If the two cards represent the same number, the player keeps the cards and turns over two others. If the two cards turned over do not represent the same number they are placed face down again and the next player turns over two cards. Play continues until all the pairs of cards have been found.

Variation: Place the 24 cards face up on the table and players take turns picking up one pair at a time. This is an easier version.
